Letter of Recommendation for Ramon del Barrio

Ramon del Barrio and I have been friends and we have worked together professionally on stage, in the recording studio and in the classroom many times in the last twenty years.

He is an experienced and gifted choreographer, dancer, actor, singer and teacher.

In the classroom, he communicates with humor and warmth and often inspires students to rise to a level of professionalism usually not seen in student performances. He is a master of many styles of dance including traditional and contemporary Broadway choreography.

As a core member of Chita Rivera's company, it is evident that his personal work ethic is high.

Any performing arts organization, theatrical or educational would be fortunate to acquire the skills of Ramon del Barrio.

Thank you,
